_____ Please check here if you would like to share some information about your child with their teacher privately.

Your name: _____ Telephone: _____

Relationship to child: _____

(Please use the back of this paper should you need more room.)

Thank you for taking the time to provide us with the above information. It will help us a great deal in meeting the needs of your child.

Julington Creek Elementary School

Kindergarten Readiness Information

For a successful Kindergarten year, your child should be able to...

- Dress self
- Feed self
- Take care of toilet needs
- Care for personal belongings such as: lunch box, backpack, coat, etc.
- Communicate wants, needs and thoughts verbally
- Practice sharing things and taking turns
- Follow one and two part directions
- Understand basic safety rules
- Name basic objects such as bed, chair, table, cat, dog, etc.
- Walk backwards and in a straight line 5 or more feet
- Stand on one foot 5 or more seconds
- Hop on one foot 5 or more consecutive hops
- Understand basic concepts: in/out, up/down, front/back, over/under
- Sing/recite alphabet
- Look at books with pictures and pretend to read
- Retell simple stories
- Sit to listen to a story
- Repeat a clapping pattern
- Repeat 8-10 word sentences such as: The boy ran all the way home from the store.
- Recognize and name basic shapes and colors
- Hold scissors, pencil and crayon correctly
- Write first name correctly (initial letter uppercase, others lowercase, e.g. John)
- Draw simple pictures of people, animals, places
- Color in the lines, not scribbling
- Recognize and name numbers (know difference between numbers and letters)
- Practice counting orally to 10 and counting objects past 5
- Recognize some words written in a book (Dolch words examples: the, and, a, can)
- Identify most letters of the alphabet, identify some sounds of letters

Listed below are valuable resources to support your child's growth and readiness for kindergarten:

Dear Families and students,

Welcome to Julington Creek elementary! I am looking forward to the next school year and all it has to offer. Hope your summer is filled with lots of memory making opportunities for you and your family.

Student health is essential to effective learning. You can have a great influence on student health. The goal of student health services is to ensure students are at optimal health, are present in the classroom, and ready to learn!

I have been a pediatric nurse for many years in various healthcare settings. Students can be very challenging in the management of their wellness. Visits to the school nurse range from first aid, daily medication administration, health assessments, hearing and vision screening, healthcare procedures for students with acute or chronic health conditions, parent communication, student education and emergency care.

Hand hygiene is the front line for fighting the spread of germs. Hand sanitizer is good, however; basic soap and water will get the job done! Use sanitizer as an alternative to handwashing when water and soap are not available. Practice with your student covering their mouth whenever coughing or sneezing. Immediate disposal of used tissues and single use for each tissue; decreases the spread of germs. Keeping your student home when they are not well; provides needed rest and intervention by parent or primary care physician and minimizes spread of infections in the classroom.

You can expect a call if your student has a fever (100 or greater) or if temperature is rising over time in the clinic. Student must remain home 24 hours and fever free, WITHOUT the use of Tylenol or Motrin. If your child is sent home from clinic with fever they may not return the next day.

Over the counter medications like Tylenol, Motrin and others that are given as needed, do require a medical authorization form signed by you and your physician in order to be given in the school clinic by the nurse. Forms are also available on website.

Please do not hesitate to visit the clinic if you have health concerns for your student. If your student requires daily medication be given while at school; there are forms (Medical Authorization) available from our website in the clinic area. If your student has chronic or acute condition such as Asthma, Allergies, Diabetes or others that require daily intervention or emergency meds; please print and complete the Medical Management Plan from our website.

I cannot say enough about water and hydration. Water is essential for prevention of headaches, stress fatigue and dehydration. Please encourage your student to bring daily water bottle and know they may use it throughout the day.

A spare change of clothing in a Ziploc bag with their name; can avoid a call to bring dry clean clothing for your student in case of occasional accidents at school.

Transition to the new routines of school may take on different intervals for each student. Communicate with your teacher strategies that may help your student be successful in their new classroom environment. We are here to help you as you become part of the JCE family!

Mindy Rand-Doxzon BS, RN, CPN
