The most important and supportive parent phrase is:

"Amazing...I love that piece...Can you play it again?"

The second most effective is:

"That sounds beautiful! How do you do that...?"

A Connected and Supportive Family Experience is the Essential Quality of Success!

~~

Creating a true and genuine interest in your new players musical experience is the 'secret' to connect your natural sense of love to their success.

For a new player it is certainly the most valuable reward.

Your return is the potential for many years of beautiful music.

Many Parents choose to Learn Together:

- Parents will be happily guided in the same techniques of reading, counting and playing that are used to lead ensembles and orchestras around the world.
- It is simply not long until this path leads to playing pieces and duets together, even from the very beginning stages. For many, this becomes a beautiful lifetime connection.
