

Mr. Hoessler comes back to us from Liberty Pines Academy where he served as an Assistant Principal. Prior to his administrative roles, he taught mathematics at each grade level at Switzerland Point Middle School. Before moving to St. Johns County in 2016 with his wife and three children, he served as an Administrative Dean, Math Coach, and Testing Coordinator in Orange County Public Schools in Orlando, Florida. Mr. Hoessler began his teaching career as an elementary ESE teacher in 2002. He graduated from the University of Central Florida with a Bachelor's Degree in Exceptional Student Education and obtained a Master's Degree in Educational Leadership from Saint Leo University. In addition, he holds a certification in Middle Grades Mathematics. Mr. Hoessler believes that all students can learn and a team of teachers working together are the key to unlocking their full potential through fostering relationships, having high expectations for all students, and implementing cognitively engaging and motivating lessons. He also understands that it takes the contributions of all stakeholders to ensure a student's success. His leadership philosophy is weighed heavily in fostering relationships with all stakeholders, building capacity in the staff, and creating opportunities for shared leadership. Modeling these traits encourages a learning environment that is supportive of each other, maintains high expectations, and promotes a collaborative nature campus wide. He is thrilled to rejoin the Julington Creek family. Go Jaguars!
